1.2. Overview of the validation exercises

Our validation exercise results in this report arise from the procedures performed as per inception report approved by BBSYDP managed dated 5 May 2016, cover following components:

Component 1 - Validate curriculum achievement by TSPs as per agreed program guidelines;

To validate the curriculum achievement process, we prepared document review tool and interview form to evaluate and validate the performance of each TSP through desk and document review and telephonic interview of trainees on a sample basis. For this we reviewed relevant documents such as TSPs contract, curriculum of training & completion reports, tests results, status reports submitted by TSPs and PMRs monitoring reports by BBSYDP and contacted selected (sample basis) trainees and conducted interviews through telephone to inquire their experience from the trainings and validate the level attainment of curriculum against respective trade.

Component 2 - Validate certification of trainees by TSPs and external bodies;

After curriculum attainment validation, the second stage was to validate and verify that certificate of trainees has been issued by TSPs and external bodies (where applicable) at the end of each training. At the end of curriculum attainment, every TSP is required to conduct an examination and award certificates to graduated trainees. Certificates awarded by TSPs were either internal certificates issued directly by TSP, duly endorsed by the TSP and the issuance Board [(such as Trade Testing Board (TTB)] or by the external Board after conducting examination of trainees. For the certificate distribution TSPs conducted a final exam, organized certification distribution ceremony and issued training certificates to trainees on agreed format as per BBSYDP requirement.

To validate the certificate distribution process, we prepared a document review tools and interview form to evaluate and validate the performance of each TSPs through telephonic interview of trainees on a sample basis. For this purpose, we reviewed relevant documents such as TSPs contract, curriculum of training and completion reports, tests results, test papers, certificates distribution evidence (photographs and videos) status reports submitted by TSPs and monitoring reports by BBSYDP and contacted selected (sample basis) trainees to conduct interviews through telephone to inquire their experience from the trainings and validate the certification distribution and external endorsement and certification against respective trade by the TSPs. In certain cases where such endorsed certificate were not provided to us for review, we have considered alternate evidences i.e. receipt and fees submission evidence to / from respective certification authority.

Component 3 - Validate post training employment facilitation by TSPs as per agreed program guidelines

As per training contract with each TSP, each TSPs is required to provide employment facilitation to 40% for Phase VII (for PST Wing) of the total registered trainees.

As per the *BBSYDP program guidelines V section 'post training employment verification'*, a trainee would be treated as being employed if he is either:

Employment Criteria	Description
Direct / timescale basis	From unemployed to employ or from lower wages to higher wages
Self-basis	Establishment of business/entrepreneurship etc.
Indirect basis	When one is qualified in one field but gets employment in other field
Wage basis	When one is engaged in earnings on daily basis
Continued / Further Education	In case a trainee after completion of the training prefers for higher study instead of job or is unwilling to do a job such number of trainees

Employment Criteria	Description
	may be considered as employed

After certificate distribution validation, the third exercise was to validate and verify that TSPs have provided employment facilitation to at least 40% Phase VII (Batch II and III) of their assigned trainees. For employment facilitation process each TSP was required to conduct seminars, arrange interviews in a manner to facilitate trainees for employment, assist trainee for continuous education, preparation and submission of employment status on a prescribed format by BBSYSP of at least 40% for Phase VII (Batch II and III) trainees.

To validate the employment facilitation process, we prepared a document review tools and interview form to evaluate and validate the performance of each TSP through telephonic interview of trainees on a sample basis. For this we reviewed relevant documents such as employment status, evidence of employment, evidence of facilitation, evidence of seminar for facilitation, TSPs contract, and completion report submitted by TSPs to BBSYDP. Further we contacted selected trainees to conduct telephonic interviews to assess experience from the trainings and verification / validation of employment status provided and whether the TSPs provided employment facilitation and conducted seminars in this respect.

1.3. Summary of Key Common Findings

Key findings from desk reviews / documentation reviews:

- ▶ Training of trainers was not conducted in all the institutes;
- ▶ Attendance submitted by the TSP did not match with that mentioned in the PMR report of the same date in certain instances;
- ▶ In certain instances, completion report (indicating percentage completion) submitted by the TSP after the last PMR date was not in line with the average course completion period percentage;
- ▶ Instances were noted where evidence of certificate distribution was not provided by the respective TSPs;
- ▶ Tests planned in Training Time Lines were not conducted as per the plan; and
- ▶ TSP did not achieve minimum employment attainment requirement in certain instances.

Key findings from trainee interviews

- ▶ Some of the trainees we interviewed reported:
 - Incorrect trainer name(s), which may indicate that trainers who actually provided the training was different from the trainer whose CVs had been provided by TSP to the program;
 - Trainees were not provided with any curriculum / syllabus;
 - No certificates were distributed despite given the final examination; and
 - No facilitation was provided by the TSPs in employment.

3.3.3 Summary of key findings

Based on our validation exercise of curriculum attainment, certification and employment facilitation of 362 trades the following is the summary of key findings:

S. No.	Key Findings	
	Description	Trade Percentage
Findings from our desk review of documentation		
1.	<p>As per the contract each training institute is required to conduct a train the trainer (TOT) / refresher session for their trainers before the training is provided to the trainees.</p> <p>However, during our desk review we were not provided with any documentary evidence that the TOT session was conducted by the institutes before start of the training session for any of the 362 trades under SSDP.</p>	 <p>100%</p> <p>■ No Exception ■ Exception</p> <p>This exception was noted in 100% of trades</p>
2.	<p>As per the program guidelines, monitoring will be conducted by the BBSYDP monitoring team on a regular basis and Progress Monitoring Report (PMR) will be prepared by the team which will also include among other things the attendance count as at the date of monitoring which should be duly signed by the BBSYDP monitor and the institute.</p> <p>During our review, where we compared attendance records as per PMR report with attendance records provided by the respective TSP to the BBSYDP, we noted that in 306 out of 362 trades, the count of trainees as per the attendance submitted by the TSP did not match with that mentioned in the PMR report of the same date.</p>	 <p>85%</p> <p>15%</p> <p>■ No Exception ■ Exception</p> <p>This exception was noted in 85% of trades</p>
3.	<p>As per the program guidelines, monitoring will be conducted by the BBSYDP monitoring team on a regular basis and Progress Monitoring Report (PMR) will be prepared which will include among other things course completion percentage (%) as of the date of monitoring and should be duly signed by the BBSYDP monitor and the institute representative.</p> <p>As part of our desk review, we noted the course completion report (indicating percentage completion) submitted by the TSP after the last PMR date was not in line with the average course completion period percentage as reported in the previous reports. This was noted for 4 out of 362 trades.</p> <p>Further, no evidence was provided to substantiate if any extra training classes were conducted to achieve the reported increased course completion percentages.</p>	 <p>99%</p> <p>1%</p> <p>■ No Exception ■ Exception</p> <p>This exception was noted in 1% of trades</p>

5.	As per training contract each institute is required to achieve minimum employment attainment requirement (40% trainees for Phase VII (Batch III) respectively). During our desk review we noted that for 41 out of 362 trades, minimum employment attainment criteria were not achieved.	 <p>■ No Exception ■ Exception</p> <p>This exception was noted in 11% of trades</p>
<p>Findings from interviews with selected sample of trainees:</p> <p>For the 362 trades carried out under SSDP, having a total population of 12,903 trainees, we contacted a sample of 1,337 trainees and organized telephone calls with the trainees to obtain their direct input on the program. Further our interview questions focused on trainees' assessment of the level of curriculum attainment, certification, employment facilitation and quality of program. During our telephonic interview with such selected trainees we noted following key findings:</p>		
1.	We noted that for 88 out of 362 trades, some of the selected trainees reported incorrect trainer name(s), which may indicate that trainers who actually provided the training was different from the trainers whose CVs have been provided by TSP to the program.	 <p>■ No Exception ■ Exception</p> <p>This exception was noted in 24% of trades</p>
2.	We noted that for 39 out of 362 trades, some of the selected trainees either reported that the equipment / consumables were not provided or reported that raw materials for training was not provided and they had to bring the same at their own expenses.	 <p>■ No Exception ■ Exception</p> <p>This exception was noted in 11% of trades</p>
3.	We noted that for 39 out of 362 trades, some of the selected trainees reported that they did not observe monitoring team visiting the institute, whilst they were attending the training.	 <p>■ No Exception ■ Exception</p> <p>This exception was noted in 11% of trades</p>
